e-learning. Partially available students
 e-learning is Page # in attached summary where discussed: 27

Submitted by the University of Alaska Fairbanks

*Net FTE (full-time equivalents). For example, if a faculty member will be reassigned from another program, but his/her original program will hire a replacement, this is not a net faculty member. Use fractions if appropriate. Graduate TAs are normally 0.5 FTE. The numbers should be consistent with the

revenue/expenditure information provided.

PROGRAM SUMMARY

Introduction

The request for

The request for the Resilience and Adaptation Program Graduate Certificate is a response to the needs of our students and faculty. The program is designed to provide students with the skills and knowledge necessary to thrive in a rapidly changing world. It is a program that is both challenging and rewarding, and we believe it will be a great asset to our university.

delivery as offered or needed. The program is designed to provide students with the skills and knowledge necessary to thrive in a rapidly changing world. It is a program that is both challenging and rewarding, and we believe it will be a great asset to our university.

academic departments and interdisciplinary communication. As a result, departments may find that what would not normally be possible in a course or conduct research in a certain area. For example, a recent MFA graduate (CLA) and ceramicist Perrin Teal Sullivan collaborated with the assistance of the Advanced Instrumentation Laboratory (CNSM).

Alignment with values: The RAP certificate aligns with our university's values of innovation, collaboration, and excellence. It provides students with the skills and knowledge necessary to thrive in a rapidly changing world.

prepares students for employment in governmental agencies, non-governmental organizations, academia and private industry. RAP students work with community members to observe, listen, document and develop strategies and/or solutions to identified needs. RAP students generate articles, reports, presentations, and other products that flow through scholarly

presentations, educational outreach and involvement in community organizations. Students

are the force behind new research, publications, and other products that

provide the energy to improve our lives and protect our future.
